Home visits are for patients who are housebound or too ill to attend the clinic. If required, please discuss with reception staff.

Telephone & Electronic Communication

If you need to speak to a doctor on the phone, please discuss your request with reception staff. Emails are routinely answered within two business days. Patients should not use email to contact the practice in an emergency. There are risks associated with electronic communications and there may be a risk that the communication could be read by someone other than the intended recipient. Your privacy and confidentiality may be compromised. If you wish to "opt out" of electronic communication with the clinic, please notify our staff.
