This list is provided as a guide, however, it is not exhaustive.

Our staff will be happy to provide you with an estimate of fees for services not listed above.

Private billing fees for our Menopause consultations are for those consultations with Dr Hilma Starostina. These fees are set at a higher price as they require extra training and knowledge by the General Practitioner with a more extensive and comprehensive consultation required. If you have any questions relating to these fees, please feel free to contact our reception staff who will be more than happy to assist with your inquiry.

Return appointments for results will incur a fee, however if you are having some concerns with your treatment plan or any new medication prescribed, the treating practitioner will be more than happy for you to return to the clinic for a consultation to discuss your concerns.
